Description

The variable provides an estimate of the total work experience from 1980 (in 1000). A value of 5500 for this variable means that a person has an estimated work experience corresponding to 5, 5 years of full-time work. The value for work experience will never exceed 750 a year for part-time insured persons and 1000 a year for others.

The variable has been calculated without any consideration to unemployment during the year, which means that unemployment is not deducted in the calculation of the work experience

In regard to persons who lived abroad for at least one year, the variable ERHVER will be zeroed.
